

THE LAST WEEK.

Only Six More Days of the Great Clearing Out Sale.

Of A. Hospe's Stock of Fine Highest Grade Pianos and Organs.

He Says Almost Half the Stock Was Sold Last Week

And the Balance Must Go by the 15th When the Building Alterations Begin.

Never Before Has Such An Opportunity Presented Itself.

WHEN THE BEST, MOST RELIABLE, AND OLDEST MAKES OF PIANOS

Could Be Purchased at the Low Prices and Easy Terms.

Those Interested Should Call Early in the Week to Secure Choice Bargains.

To piano buyers!

The special clearing out sale of our stock of fine pianos and organs on account of necessary building alterations, closes Saturday of this week and we desire to say that those who may need a piano now or will have to buy one within the next two years can afford to miss this sale. We cannot regularly, nor is it possible for any dealer to sell pianos and organs at the prices we are offering on this stock. \$75 to \$250 can be saved by securing a piano at this sale. These are facts that will be clearly demonstrated by the prices we are offering on this stock. Our stock is practically all new, not shop-worn or second hand, and the prices we quote and terms we offer are on bright new stock.

We have some shop-worn instruments, also second hand pianos in various makes of uprights for \$85, \$90 and \$100; also cash, \$5 per month buys them.

We are the authorized western agents of the "Knaib," "Kimball," "Knapp," "Hallett & Davis," "Whitney," "Hospe," "Violet" and others, the finest pianos in the world, and we have them in all the various styles and all are plainly marked to clear out at this sale at greatly reduced prices.

Tomorrow we offer the highest grade of \$225 to \$575 pianos for \$187, \$217 to \$223.

Brand new \$225 and \$250 pianos will be cleared out at \$110, \$120 to \$137.

Fifteen dollars cash, \$7 per month buys them.

Brand new "Hallett & Davis," "Steinway" and other pianos, mahogany case, for \$263, \$287 to \$347. Agents ask and get twice the price for them.

Twenty-five dollars cash, \$10 per month buys them.

We will ship pianos anywhere to reliable people on the above terms.

Have you seen the new scale "Kimball" with the new metal anti-moisture pin block, the new tone and scale, regulating brace, new patent metal hammer flanges and the only piano with a continuous bridge and perfect scale throughout, the nation's official piano, as it adorns the blue room of the White House.

We have the "Kimball" in all styles, and they are marked to close out at almost half price.

Brand new "Howard" piano, full size and scale, dust, roll and patent soft stop, asbestos plate, \$300; our sale price, \$147.

Brand new "Victor" piano, full size and scale, French walnut, four feet eight inches high, carved panels, full swing music rest, roll fall board, three pedals and soft damper, agents price, \$225, our sale price, \$187; \$25 cash, \$8 per month buys them.

Used "Knapp," \$155; our sale price, \$125; \$15 cash, \$6 per month buys them.

Brand new "Packard," "Kimball" and "Hospe" organs, with mirrors, very pretty cases, for \$45, \$48, \$53 to \$68; \$5 cash, \$4 per month buys them, agents get twice the money for these organs.

Out of town customers can safely leave with us the selection of an instrument, as we guarantee entire satisfaction or money will be refunded. State price you want pay and send first cash payment and will ship direct.

Store open every night till 9:30 this week. A. HOSPE, 1513 Douglas.

Summer Footwear

(FOR MEN)

Was never made up in such a variety of colors and shapes in this season—and in the celebrated

Regent \$3.50 Shoes

you get the very latest in style, color and finish—you buy direct from the factory and save all middle-man's profit—the same shoe sold by others would cost \$4 and \$5—our price \$3.50 for your choice.

KINDLY TAKEN FROM FRANCE

Sister Republic Presents Rare Vases from National Pottery.

GIFT COMMEMORATES LAYING OF CABLE

Presentation by Order of Felix Faure Accompanied by Friendly Speeches from M. Cambon and Mr. McKinley.

WASHINGTON, April 8.—A notable ceremony occurred at the blue room of the executive mansion at 1615 G street today when the French ambassador, M. Cambon, presented to the government and the American people, as represented through President McKinley, two magnificent Sevres vases from the National pottery at Sevres. The gift was from the late president of the French republic, Felix Faure, and commemorated the laying of the new French-American cable on August 17 last, when President McKinley and President Faure exchanged the first message over the new line between the White House and palace of the Elysee. The vases and pedestals stand six or eight feet high, and are of a deep blue, characteristic of the finest Sevres ware, as well as in happy accord with the prevailing colors of the blue room. The presentation was made the occasion for a happy exchange of international greetings. M. Cambon making an address and the president responding. M. Cambon was accompanied by the entire French embassy, including M. Thiebaut, M. de Bouffere, Major de Grandprey and Lieutenant de Farmon and M. Lurienne of the French cable company. The president was accompanied by Secretary Hay and some of the officials of the executive mansion. The vases had already been placed in position on either side of the large window looking toward the Potomac. They far exceed in elegance anything in the way of porcelain hitherto brought to the White House.

Ambassador Cambon's Greeting.

In his presentation M. Cambon spoke as follows:

Mr. President: Some months ago M. Felix Faure, the lamented president of the French republic, joined with you in opening for the first time the Franco-American cable, and when I saw him for the last time he revealed the incident to me. It seemed to him that it would be fitting that some monument should be erected to the cable which united the two great republics. He selected to this end two large vases, made in the national porcelain works at Sevres, and he expressed to me the desire that these vases, which he had selected for the American people, whom you represent, should be placed in the White House.

President McKinley said: I realize that you did not permit him to realize his wish, but his sincere desire should not be left unfulfilled. In his name, therefore, I have the honor to present to you these vases.

They will remain as a pledge of the sympathy which draws closely to one another the two great republics of the world, and will also be an evidence that this cable which united France to the United States across the ocean is but a type of the more potent ties that for so many years have united the two nations.

President's Acceptance.

In reply President McKinley said:

Mr. Ambassador: But a few weeks ago the generous American people joined the French nation in testifying their sorrow at the death of the lamented president of the republic. The same expression of sympathy toward the memory of one who, in the brief time of his magistracy, had continued the work of his predecessors and had contributed to still further strengthen the historic cord which links the two peoples. I am deeply moved by the proof you now give me that this high aim was to the last in his mind, and I no less warmly appreciate the act of his successor, President Loubet, giving effect to one of the purposes cherished by President Faure. In the name of my countrymen I accept the gift you offer. These beautiful vases, typical of one of the most celebrated arts of France, will remain in my care as evidence of friendly sentiments of the French government and people to the United States, and as a memorial of the auspicious event they were designed to commemorate.

I beg that you will convey to President Loubet, in my name and on my behalf, the warmest thanks of the American people for the gift, and the sincere expression of the sincere appreciation with which this is accepted.

Fame of the Factory.

The Sevres factory is a government institution situated near Paris, on the banks of the Seine, half way between Paris and Versailles. It was created by Louis XV, because the soil furnished a porcelain entirely unique in the modeling of fine articles. This most prominent artist in France, both painter and sculptor, have been attached to this factory. There is probably not a royal palace in Europe that does not possess one or more celebrated specimens of the Sevres ware, such as vases or table services, and the White House itself possesses Sevres service which always appears at the state dinners given by the president.

The vases will now remain a permanent possession of the White House, with several other notable decorations given by foreign governments. If they had been personally to President McKinley it would have required an act of congress for their acceptance, but as a gift to the American government and people no special act is required and they remain one of the fixed possessions of the White House.

COOK TELLS A HARD TALE

Beef Served to New Jersey Troops Said to Be Unhealthy and of Poor Quality.

WASHINGTON, April 8.—The army court of inquiry into the beef supplied to the army decided today to adhere to its decision not to call the list of witnesses submitted by General Miles. The reading of the official reports was concluded. Alex. Powell, the owner of the beef process of which so much has been said, was heard at the forenoon session. He gave many details concerning his invention and stated that he made an agreement with Armour & Co. to have them use the process in case they could secure the government contract. He stated, however, that Swift and Company had not had the use of it.

Major Van Horn of the Twenty-second infantry, whose opinion was read today, stated that "the canned beef was nothing more than the refuse of beef after soup had been made of it."

General Shafter probably will testify early next week and the outlook is for the closing of testimony by Saturday next.

Captain George B. Davis, who was General Eagan's principal assistant in the commissary general's office during the war, was recalled to give testimony concerning a shipment of canned roast beef to the troops at Bull Run, Va. He said many cans of the canned beef had been opened in the office and he had never found any that contained unwholesome meat.

JOURNALISTS INVITE PRESIDENT.

Press Clubs at Boston Desire to Hear

WASHINGTON, April 8.—General Shryock and Colonel Carter, representing the Baltimore Press club, accompanied by Senator McComas and Representative Mudd, called at the White House today and extended an invitation to the president to attend a banquet to be given by the journalists of that city next week to the International League of Press Clubs, which holds a meeting there from the 11th to the 15th. The president expressed the hope that he would be able to attend. Secretary Hay and postmaster General Emory Smith have accepted

AS TO CENSUS ENUMERATORS

Appointments for Nebraska Will Be Agreed Upon by the Two Senators.

WASHINGTON, April 8.—(Special Telegram.)—A mutual agreement was reached today by the two senators, Mr. Thurston and Mr. Hay, as to the appointments of census enumerators for Nebraska. The two senators have agreed upon a list of names for the enumerators, and the appointments will be made for some time, it is the desire of Mr. Merriam to open up a correspondence with those to be selected with a view of familiarizing them with the work and get the machinery ready for operation. In the matter of census enumerators for Nebraska, Mr. Thurston and Mr. Hay will in all probability recommend mutually, so that there will be no possible chance for a misunderstanding.

Acting Secretary McKelvey has had the designs for the memorial day oration at Gettysburg Thursday, May 29. The invitation came from the chairman of the committee on arrangements of Corporal Shelby post, No. 9, Grand Army of the Republic, of Gettysburg. If possible, Secretary McKelvey will accept the invitation, although he is contemplating a short trip to Europe just prior to the ocean voyage.

Dr. Edwin P. Hayward of Nebraska City, assistant surgeon in the volunteer army, returned from Santiago early this week to terminate his duties with the medical department of the army.

It is understood that arrangements are being made for the formal transfer of the treaty of peace signed between Spain and the United States, which will probably take place next Wednesday. Minister Cambon of the republic of France will represent Spain in the ceremony, which will be attended with much pomp. Immediately upon the transfer being made President McKinley will issue his proclamation of peace and cordial relations will once more be resumed between Spain and this country.

It is the intention of the War department to relieve volunteer officers of their positions as soon as possible, the intention being to have all volunteer organizations out of Cuba by May 1. Privates Charles E. Jarvis, Company B, now at Morning Sun, Pa., and Elmer Gage, Company F, Third Nebraska volunteer infantry, now at Marshall, Ill., are mustered out of service, to date from March 10.

Senator Thurston tonight the guest of the Union League club of Philadelphia and on Monday will address the Grand Army of the Republic of Maryland at Baltimore.

FINAL ACT OF WAR DRAMA

Exchange of Peace Ratifications Will Take Place Within a Few Days.

WASHINGTON, April 8.—The exchange of ratifications of the treaty of peace between Spain and the United States, signed at Paris, will probably take place in this city next week, the ratifications being followed by a proclamation by President McKinley officially announcing the close of the war with Spain and the resumption of friendly relations, commercial and otherwise, between the two countries.

The Spanish copy of the treaty, which was signed by the king of Spain, is expected to reach here Monday and the arrangement of the formalities attending the exchange of ratifications will be promptly perfected.

Secretary Hay has been officially advised of the forwarding of the Spanish ratification of the treaty of peace to the French ambassador at Washington. The document is now on the high seas and not far from New York and is expected to be delivered to the French ambassador early next week, probably next Monday.

The exchange of ratifications will be followed promptly by the payment of \$200,000 to the Spanish government on account of the cession of the Philippine islands to the United States.

FAIR PLAY FOR THE MERCHANTS.

Long Arm of Government Enforces Justice in Their Behalf.

WASHINGTON, April 8.—The French merchant ship, the *La Gueyria*, was detained yesterday for Port Limon, Costa Rica, where it will receive instructions from the Navy department as to its further course, the cable to Nicaragua ports being interrupted through the action of the government of Nicaragua. Nothing has been heard at the State department from its representative in Nicaragua since Consul Soreby cabled from Port Limon three days ago an account of Torres' action, and appealed for two war ships.

The Detroit is due at Port Limon Tuesday morning, and unless there is a decided change for the better in the situation in Nicaragua it will push on with all speed to Bluefields. Our government is determined not to tolerate the extortion practiced by Torres under American merchants there.

A disquieting feature of the situation is the semi-detention by President Zelaya of Torres' contention that he has a right to collect duties which the government of Nicaragua has refused to pay. The government of Nicaragua has refused to pay the duties to the insurgents, but no claim exemption from a re-collection by the government of duties so paid.

The State department, however, has satisfied itself that the government of Nicaragua is not to be tolerated. The government of Nicaragua is not to be tolerated. The government of Nicaragua is not to be tolerated.

GRIDIRONERS ENTERTAIN WOMEN.

Unique Dining Club Invents Picnecques Entertainment.

WASHINGTON, April 8.—The dining club tonight gave an entertainment for women, which was one of the usual picture occasions for which the club is noted.

About 75 women and men assembled at the Arlington hotel earlier in the day, after being received by the president of the club and his wife, were ushered into the large banquet hall, which had been transformed into a most beautiful miniature forest, illuminated by thousands of electric lights of different colors. There were trees of large dimensions and every chandelier was an overhanging branch. These were filled with laurel and green vines. Amid the branches of the trees were many birds, so naturally arranged as to make the illusion more complete. About the sides of the room were ranged palms and ferns and potted flowers. In the windows were aquariums with live fish and water fowl. Gridiron decorations and electric lights were hanging in the foliage. The room being entirely surrounded with mirrors, everything was seen

HERE TO LOCATE OFFICES

Purpose of Visit of General Passenger Agent Hanson of Illinois Central.

FARNAM STREET LOCATION DECIDED UPON

Owner of Building Selected in Doubt as to Whether He Can Afford to Stand Expense of Making Changes Desired.

General Passenger Agent Hanson of the Illinois Central did not make his visit to Omaha Friday solely for the purpose of seeing the city. It develops that he was looking for a location for a city ticket and freight office for his road, in anticipation of the time when the company will be operating its trains into and out of Omaha. Negotiations are under way for a Farnam street corner, and while the indications are that a contract for a long lease will be made it has not yet been signed, and will not be for several weeks.

The property which the company wants is now occupied by two business houses, and these will have to be considered in the contract. A number of changes will be required in the building to fit it for the use of the railroad, and an architect is being employed to make estimates and plans.

According to the owner of the building in question, the only point of difference between him and the railroad company is whether the former can afford to go to the expense which he estimates will be necessary to put the building in the shape desired by the prospective tenant. He says if the changes are made the office will be the finest in the city for railroad purposes. It is expected that Mr. Hanson, or Mr. Keppers, the general freight agent for the Illinois Central, will return to Omaha in a few days to complete the contract for these offices.

DULUTH & NEW ORLEANS

Surveying to Begin Monday on Proposed Railway Extension South from Minneapolis.

DES MOINES, Ia., April 8.—Surveying will begin Monday near here on the proposed Duluth & New Orleans railroad. The line is projected to run from Minneapolis, through Iowa and Missouri, through this city. It is considered a project of the Pittsburg and Gulf to get connection with the lakes. The company seems to have substantial backing and is attracting much attention.

RATES TO MEETINGS OF BAPTISTS.

Fifty-Two Dollars for the Round Trip

Agreed Upon.

Omaha roads have authorized a rate of \$52 for the round trip for a second class ticket to Portland, Tacoma and Seattle for the Baptist anniversary meetings to be held there during next month. It has been charged that these meetings were organized that the northern lines might have an excuse to make a low rate to those points at the same time the Baptist union meeting will be held in San Francisco.

The northern roads have a long line to San Francisco, and could not well make the rate to that city which had been agreed upon by the lines further south, and to protect their business made a corresponding rate to the north Pacific points. Instead, originally they announced they would make these rates the same as those adopted for the San Francisco meeting, which were \$60, but a few days ago they reduced the rate to \$52. This has now been met by the Omaha roads, and it is openly predicted that the rate to San Francisco will also be reduced to \$52 for the privileges allowed on the tickets to Portland, making that trip as desirable as the one to San Francisco, and, barring the pleasure of a trip through Colorado, will be \$12.50 cheaper than the rate to San Francisco. The rate to the Golden Gate is made as low as that to the northwest, because in going through the Ogden gateway, returning by the northern route, there is a charge of \$12.50 extra for the trip north from San Francisco to Portland. It is said to be natural, under these conditions, that if the San Francisco meeting is to be made a success, it must have the same rate as is made to the northwest.

ACCEPTS MICHIGAN ROAD'S RATES.

Burlington to Adopt Proposed New

Tariff from Western Territory.

ST. LOUIS, April 8.—General Passenger Agent L. W. Wakely of the Burlington route sent this announcement to the Associated Press today:

The Burlington route has concluded to adopt, from the Missouri river and the rates tendered us by the Michigan Central road, which will make the same rates from the west to the seaboard, via Chicago, and that standard line will apply to rates via any gateway, over any differential line, both first and second-class.

Cuts the Rate to New York.

Through the action of the Michigan Central the rate to New York over the standard lines will be reduced \$2. What are known as the differential lines between Chicago and New York have been charging \$18 between those two cities, while the other roads, such as the Michigan Central, Pennsylvania and Lake Shore, have charged \$20. Considerable dissatisfaction has grown out of this distribution of business, although the differential has been in force for many years. The fact is that the differential lines have made about as good time and furnished almost as good service as the other roads. The result was they received an unfair proportion of the traffic. Lately the Michigan Central gave notice that it would make this a differential line, and was quoted the \$18 rate to its connecting lines for hauling purposes. The result will be that those who have paid the extra \$2 for the privilege of riding over one of the alleged standard lines will hereafter save that amount in their expense.

In the Interest of Grain Men.

In connection with the Baltimore & Ohio Southwestern, the Burlington freight department at Chicago has announced a rate of 30¢ cents on wheat and corn for export on all business originating west of the Mississippi river. The other roads immediately met the rate. The export rate has been 35¢ cents, the reduction being just 3 cents. The new rate will affect all shipments from this territory, but it will be felt but little, because there is practically no grain to ship from this section. Local grain dealers say that about all the grain there is in the transshipment country now held for feeding purposes or for speculation, and the reduced rate will not cause much of it to move. Had the rate been made a few months ago while the prices of grain were hitting the high places it would have been a great advantage to the western holder.

Wyoming Railroad News.

CHRYSLER, Wyo., April 8.—(Special.)—Andrew Palm has been appointed assistant to Roadmaster McGonigle of the Wyoming division of the Union Pacific and will have charge of the road from Rawlins to Medicine Bow, including the Hanna branch. A force of seventeen Union Pacific surveyors left here last evening for the purpose of making a survey of a branch line of road proposed to be built from Sidney, Wyo., to eastern Wyoming by way of Crawford. This extension is planned to secure the stock and farm shipments from the valley of the North Platte in western Nebraska and eastern Wyoming as against the Burlington system, which has a corps of surveyors in the field surveying a pro-

COMBINED TREATMENT

OF THE GREAT CURATIVE POWERS

MEDICINE

ELECTRICITY

References: BEST BANKS AND LEADING BUSINESS MEN of this City.

SUCCESS OR FAILURE

HEALTH and Disease are conditions on which depend pleasure or sorrow, happiness or unhappiness, success or failure. HEALTH makes a man equal to any emergency. DISEASE makes him unequal to the ordinary duties of life. It is ESSENTIAL to be WELL.

When Electricity fails to cure, when medicine fails to cure, go to the State Electro-Medical Institute and let its Electrical and Medical Specialists prove to you that by their combined electro-medical treatment they can cure you even when all else has failed.

Effective as either medical or electrical treatment has proven to be when used separately under proper advice, the combining of the two great curative agents by these eminent Specialists produces a curative power never before obtained, and impossible to secure either medicine or electricity used in the old way alone. Does it not appeal to your intelligence that the two combined will accomplish more than when used separately? These able and progressive Specialists are today achieving most wonderful results in curing NERVOUS, CHRONIC AND BLOOD Diseases, and all difficult diseases of MEN AND WOMEN.

Some doctors fail because of treating the wrong disease; others from not knowing the right treatment. NO MISTAKES HERE! AND NO FAILURES. In seeking treatment the following qualifications should be taken into consideration: Ability, experience, skill, and an established reputation for

RELIABILITY!
